

6th International Sea Duck Conference

6-9 February 2017
San Francisco, CA

"From Bay to Boreal: Challenges of Full Annual Cycle Management of Sea Ducks"

The 6th International Sea Duck Conference (6thISDC) is a scientific and educational meeting dedicated to sea duck conservation and management. Our mission is to bring together delegates from academia, government and non-governmental agencies, consultants, and professionals from around the world to discuss current research and future conservation of sea ducks.

For more information, please visit the **Sea Duck Conference website:**
